Location, Building, Etc.

LOCATION.

THE situation of West Chester is unsurpassed for the beauty and fertility of its surroundings, and for the healthfulness of its climate. Elevated nearly 500 feet above tide, it is free from all malaria. Access is had several times daily by railroad from Philadelphia, or by a branch connecting with the Pennsylvania Central, as also by stage from the Wilmington & Reading Road.

THE BUILDING

is situated on the South side of the Borough, half a mile from the Court House, is entirely new, of stone, 150 by 112 feet, four stories high, with a basement. All the rooms are heated by steam, and lighted with gas, and nearly all are arranged for two students each.

The views are among the finest in the county, embracing a scope of country varying in extent from three to fifteen miles. There is a good view from every room in the building.

GROUNDS.

The ground, consisting of ten acres, occupies a beautiful elevation, sloping from the building in all directions; it is laid out in drives, walks, croquet and ball grounds, and is ornamented with trees, shrubbery and flowers.

OUTFIT.

Pupils boarding in the Institution will be furnished with single beds, bedding and wardrobe, and are expected to furnish a pair of blankets, looking glass, towels, and table napkins. Many of the students provide carpet for their rooms, thus giving them a very neat and home-like appearance.

Admission, Government, Etc.

CONDITIONS OF ADMISSION.

Pupils will be allowed to enter the regular course at any point for which they are actually fitted. They may enter at any time during the session, and will be charged from date of entrance till end of Session, unless by special agreement.

A prompt attendance at the commencement of the Session is of the utmost importance, both to the progress of the pupil and proper organization of the school.

Students desiring to enter the Institution should make application to the Principal at as early a date as possible.

GOVERNMENT.

Self-Government is regarded as the only true government, and nothing will be required except that which a *true sense of honor and self-respect* would naturally demand from the individual.

Any pupil whose influence is found to be vitiating, will be at once removed from the School.

MORAL AND RELIGIOUS CULTURE.

The intercourse of the students with each other and with the Instructors, most of whom, together with the Principal and his family, reside in the Institution, will be regulated in conformity with the usages of refined and cultivated society.

All students are required to attend the opening exercises of the School in the chapel each day, and all must attend religious services each Sabbath morning, in the town, at the churches preferred by their parents or guardians.

APPARATUS.

The Institution is supplied with Philosophical and Chemical Apparatus of the most approved kind, and students have an opportunity to *perform practically* the experiments described in the text books. A small charge is made to students

taking a course in Experimental Chemistry, to cover the expense of breakage and chemicals consumed.

LIBRARY AND READING ROOM.

There is a well-selected library belonging to the school, to which students have access, free of charge, subject to regulations adopted by the trustees

The reading tables are supplied with the leading periodicals of the country, together with the prominent Philadelphia and Wilmington daily papers and the local county newspapers, to which students have free access when not on duty required by the school.

LITERARY SOCIETY.

The "Moore" Literary Society, composed of students and members of the Faculty, has been in successful operation since the commencement of the school. It is desirable that students connect themselves with the society, as the advantages are various and important.

COURSE OF LECTURES.

Students have unusual facilities for attending Lectures. During the year the following distinguished speakers lectured in West Chester, and a large number of student attended :

John B. Gough, Mrs. Mary A. Livermore, Bayard Taylor, James T. Fields, Rev. Wm. H. H. Murray, George P. Hays, D. D., Birdsey G. Northrop, and Hon. Daniel Dougherty. In addition to the above, Joseph Thomas, LL.D., of Philadelphia, delivered a course of eighteen lectures on History and Language, to the students, in the chapel of the school.

MUSEUM.

The Museum contains a large and valuable collection of specimens, illustrating every department of Natural Science. It was commenced in the year 1826, and has been annually enriched with contributions from every portion of the world, so that at the present time it is doubtless unexcelled in our State, excepting only the Academy of Natural Science of Philadelphia. The justly celebrated "Herbariums" of the late Dr. Wm. Darlington, and David Townsend, now in this

Museum, are conceded to be two of the most accurate and extensive private collection ever formed in this country.

PHYSICAL TRAINING.

The importance of physical culture is duly appreciated, and the general health of the students is a subject of careful attention. The whole school receives a daily drill in the Lewis' system of Light Gymnastics, and out door exercises required when the weather is favorable.

TEXT-BOOKS.

Text-books are sold to students at Philadelphia rail prices ; but all books used in the Elementary Course, are furnished on rent, to those preferring it.

INSTRUMENTAL MUSIC.

The Piano is taught in accordance with the most improved modern methods, and by instructors of eminent qualifications. The pupil is made to feel that an understanding of the art of Music and a mastery of this instrument, constitute no light accomplishment, and cannot be attained by any short and easy way. All the work done, therefore, is on a plan which contemplates the higher results of musical culture. We cannot encourage the prevailing impatience so fatal to genius and lasting success, which works only under the *stimulus* of immediate results ; no pupil is led to expect a single triumph of attainment except as the fruit of patient and long continued labor.

Those who wish to make music a *specialty*, have facilities rarely excelled.

APPLICATIONS FOR TEACHERS.

Frequent applications are made to the Principal for well trained teachers ; and it will be our aim to supply the demand as far as possible. Directors and others desiring to employ teachers for the higher grade of schools, will please remember that we are better able to supply their wants near the end of each Term.
